DEPARTMENT OF FOOD AND PUBLIC DISTRIBUTION
KRISHI BHAWAN, NEW DELHI-110001

Dated: September 30, 2019

संयुक्त सचिव

D.O. No. 9(6)/2018-Comp.

Dear Sir/neam,

As you are aware, this Department is implementing the Central Sector Scheme of 'Integrated Management of Public Distribution System (IM-PDS)', the objectives of which is to take forward the reforms brought in by the 'End to End Computerization of PDS Operations' scheme to the next level, wherein the data generated due to computerization serves a great purpose of bringing highest efficacy in the system.

- 2. As part of the key activities under the IM-PDS scheme, this Department initiated the first phase of data analytics exercise of PDS data of States/UTs w.e.f. November' 2018 and covered 25 States/UTs. Subsequently, taking the learning from the first phase, the second phase data analytics was also started w.e.f. May' 2019. However, to mainstream this activity to bring continuous improvements in the PDS operations, this Department has initiated the development of a software application to serve as a "National Level Data Analytics Platform" with a common goal of bringing about the highest level of efficiency in the PDS operations of all States/UTs and in turn, at the national level.
- 3. In this regard, this Department with support from GIZ, India has selected an agency for the development of customized data analytics platform as mentioned above, under the supervision of NIC and guidance of this Department. It is expected that the said software application shall be ready for deployment in all States/UTs in the next two to three months. In this connection, as per the requirements given by the agency, every State/UT shall have to provision the following minimum IT infrastructure viz. Two (2 Nos.) of servers or vCPUs having 8 GB RAM & 100 GB hard disk space, and any test/staging environment for testing of the software application in the respective State/UT before deployment.
- 4. I would therefore request all States/UTs to kindly intimate this Department with regard to the availability/arrangement of the above-recommended IT Infrastructure for the deployment of the said Data Analytics Platform. In case the required IT infrastructure, as above, is not readily available/couldn't be arranged, then the States/UTs concerned may utilize any unspent balance or savings accrued under the component head of "Supply Chain Management" of the End-to-End Computerization scheme as per the State/UT wise estimated requirement of IT Infrastructure envisaged by this Department (list annexed). Further, if unspent/saved funds are not available then the requisite IT Infrastructure may please be arranged from State/UT's own resources.

- 5. Furthermore, States/UTs are requested to share the contact details of nodal officers for this activity for necessary coordination with this Department, NIC and the software agency at the earliest. And in case any support or more information is required on this initiative, the nodal officers may kindly contact Sh. Pankaj Mishra, Consultant, CPMU at 9971152087 or Sh. Piyush Kanal, Consultant, CPMU at 9899198474 or by sending an email at cpmu.fpd@nic.in.
- 6. I look forward to a proactive approach and cooperation by all States/UTs.

with Regards,

Encl: As above.

Pr. Secretary/Secretary
Food & Civil Supplies Department
Government of all States/UTs.

Yours sincerely

(S. Jaganathan)
